- Controls up to 8 label finishing units

ECONOMICAL
FULL COLOR LABEL PRINTING
OF **SHORT RUNS**

DLP1000

No longer do you need to search for suppliers, no more long delivery times and no storage costs because of various shapes and sizes of labels. With the LCX1000 digital label creation system everything is in your control. You are able to print custom labels exactly when you need them and in any shape and quantity. When you need short lead times for individualised products? Fast realisation of Customer requests without sacrificing flexibility? With the LCX1000 digital label creation system you can print short runs of labels in whatever shape and at any time you need. No long waiting times, no low quantity surcharges.

Processor	800 MHz PowerPC 750
Print speed	bis zu 124 mm/Second 7,44 m/minute
Print resolution	max. 2.400 dpi x 600 dpi
Duty cycle	up to 50.000 pages
Power supply	220-240 V / 50 Hz
Power consumption	1.610 W
Noise	<59 / <74 dB (A) (Stand by / Operation)
Dimensions (WxDxH)	1.462 x 638 x 758
Weight	110 kg (incl. Stand)
Relative humidity	15 - 85 % (rel., non condensing)
Environment temperature	15 - 32°C
Interfaces	Serial: USB 2.0 LAN: Ethernet-Interface 10/100 MBit, bi-directional (TCP/IP)
Memory	HDD: 500 GB
Control panel	7 inch color-LCD Touch panel

Supported operating systems

Windows Vista / 7 / 8 / 8.1 / 10 (32/64 bit) via Windows driver

Nicelabel Pro (Standard)

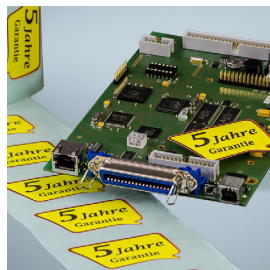

A license of the Nicelabel Pro label software is included in the standard package. With this software, designing even complex labels and stickers is child's play.

Flexi Production-Manager (Standard)

With the Flexi Production Manager you can easily manage print data and print jobs visually. The label production workflow is controlled from here. You decide on which material is printed in which mode. Here you determine whether cutting marks and cutting contours are transferred to the printer and much more.

FlexiPRINT (Standard)

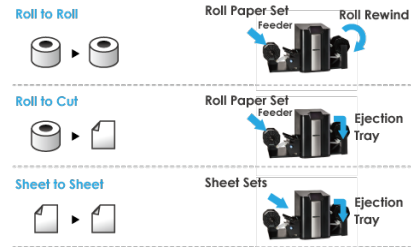

This software solution includes everything you need for professional label production. Scale, split and correct colors in seconds with Production Manager. Quickly match PANTONE spot colors. Print with contour cutting of jobs in one application. Multiple contour cutting with different parameters and much more.
